

NEOLACT PREMIUM OPTIEXPERT 2

Continuous innovation and maximum safety.

6-12 months

Features

Neolact Premium OptiExpert 2 is a follow-on milk formula with an optimal nutrient's composition especially developed for growing children from 6 babies from 6 to 12 months of age.

This product is adequate for babies from 6 months onwards and should be used as part of a diversified diet. It should not be used as a substitute of breastmilk during the baby's first 6 months of life. The decision of introducing complementary foods should be taken following the advice of a professional and based on the specific needs of each baby.

Neolact Premium OptiExpert 2 contains innovative ingredients that provide important benefits for the correct development of the baby.

- **DHA:** Docosahexaenoic acid is an omega-3 fatty acid present in breastmilk.

- **ARA:** Arachidonic acid is the most predominant long-chain polyunsaturated fatty acid in human milk.

Information intended only for healthcare professionals.
